

# Houses That Work Construction Mini-Conference

Sponsored by:

**Habitat**  
for Humanity®  
of Minnesota

Identify cost effective, practical building methods and materials that will help your affiliate build homes that are highly efficient, healthy, and affordable to maintain. Understand the steps necessary to meet building standards programs such as Energy Star. See reverse for session details.

**When:** Thursday, January 7th, 2010 from 10:00 am – 6:00 pm  
Friday, January 8th, 2010 from 8:30 am – 2:00 pm

**Location:** Great River Energy Headquarters  
12300 Elm Creek Boulevard  
Maple Grove, MN 55369

**Trainer:** Gord Cooke, certified trainer with the Energy and Environmental Building Alliance

**Cost:** \$30.00 per person for Minnesota Habitat affiliates and community partners  
\$50.00 per person for all other participants  
*FREE* for HFH-MN VISTAs  
\*\*Registration fee includes coffee, beverages, snacks, and lunch both days.  
(HFH-MN is providing this training at a discount. The actual per person cost begins at \$125.)

**Who Should Attend?** Habitat for Humanity Construction Staff and Volunteers as well as other Staff, Board Members, and Volunteers interested in sustainable building practices and standards. Please feel free to invite your community partners (such as your subcontractors) to participate!

**Please see reverse for complete session details.**

### Houses That Work

January 7th, 2010 | 10 am - 6 pm

- Learn ways to improve the affordability, efficiency, durability, safety and health of homes
- Apply fundamentals of air, heat, and moisture flow to make sound material and methods decisions
- Apply building science techniques and strategies to build high performance homes cost effectively
- Identify build process options available to keep the construction & maintenance of homes affordable.
- Summarize successes of builders who have benefited from building science strategies

### Indoor Air Quality:

January 8th, 2010 | 8:30 am - 12:30 pm

- Learn the basics about the full range of potential pollutants and their impact on indoor air quality
- Identify four important strategies for controlling and improving indoor air quality.
- Discover practical & affordable methods & materials available in the construction of healthier homes.
- Identify the key requirements of the EnergyStar IAQ Package and how affiliates can apply them to builds

*Presented By Gord Cooke, EEBA Certified Trainer*

## ROUND TABLE LUNCHEON

January 8th, 2010 | 12:30 pm - 2:00 pm

Stay for lunch to talk with other Habitat construction staff and volunteers about what trainings & resources would be most useful.
